To: Eclipse BD Customers

Date: December 5 , 2007

Subject: EclipseSuite 6.0 Beta Z7 and Z8 Release Notice

Description:

This TechFlash document is intended to notify all customers running EclipseSuite for Blu-ray that versions **6.0 Beta Z7 and Z8** were released to select customers. These versions were released specifically to support a Round-Robin-Test for a new version of the BD CMF specification. You should not use these versions for normal production until notified.

Version 6.0 Beta Z7 and Z8 should be removed from EclipseSuite workstations after the completion of the Round-Robin-Test.

Fixes & Enhancements:

Version Z7 added support for version BD CMF version 0.97
Version Z8 added changes to support type-'P' BD data discs
