

# Eclipse Copy Protection Compatibility

This matrix is intended to assist you in identifying which copy protections are compatible with Eclipse products.

Many copy protection schemes have very specific hardware and/or software requirements; please consult an Eclipse Customer Support Engineer for details.

| Brand Name         | Type of Protection | Manufacturer                  | Web Site   | Eclipse    | EclipseSuite   |                |            |
|--------------------|--------------------|-------------------------------|--|------------|----------------|----------------|------------|
|                    |                    |                               |  | IE         | IA             | IC             | IV         |
| Alpha-Audio        | CD-Audio           | Settec Korea                  | <a href="http://www.settec.net">www.settec.net</a>           | Yes        | Yes            | Yes            | Yes        |
| Alpha-ROM          | CD-ROM             | Settec Korea                  | <a href="http://www.settec.net">www.settec.net</a>           | Yes        | Yes            | Yes            | Yes        |
| Cactus Data Shield | CD-Audio           | Macrovision (formerly Midbar) | <a href="http://www.macrovision.com">www.macrovision.com</a> | See Note 1 | No             | No             | No         |
| CopyLock / PanLock | CD-ROM             | Pan Technologies              | Not available (Acquired by Macrovision)                      | Yes        | Yes            | Yes            | Yes        |

| SafeAudio          | CD-Audio           | Macrovision                   | <a href="http://www.macrovision.com">www.macrovision.com</a> | Yes        | Yes            | Yes            | Yes        |
| SafeDisc           | CD-ROM             | Macrovision                   | <a href="http://www.macrovision.com">www.macrovision.com</a> | Yes        | Yes            | Yes            | Yes        |
| SecuROM            | CD-ROM             | Sony DADC                     | <a href="http://www.securom.com">www.securom.com</a>         | See Note 3 | See Note 2     | Not Applicable | See Note 2 |
| SmarteCD           | CD-ROM             | Smarte Solutions              | <a href="http://www.vincera.com">www.vincera.com</a>         | Yes        | Yes            | Yes            | Yes        |
| SecuMedia          | CD-ROM             | ThinkBay Technology           | <a href="http://www.thinkbay.com">www.thinkbay.com</a>       | See Note 2 | See Note 2     | See Note 2     | See Note 2 |
| DBB Protection     | CD-ROM             | Wkit Security                 | <a href="http://www.wkit.com">www.wkit.com</a>               | Yes        | Yes            | Yes            | Yes        |

## Legend:

- IE - Eclipse ImageEncoder
- IA - Eclipse ImageAnalysis Software
- IC - Eclipse ImageCopy Software
- IV - Eclipse ImageVerify Software

**Notes:**

- 1** - Requires Midbar encoder. No special Eclipse hardware or software required, ImageEncoder interfaces directly to the Midbar encoder.
- 2** - In development.
- 3** - Requires Sony encoder; may require special hardware or software for ImageEncoder to interface with Sony encoder.
- 4** - Standard ImageEncoder is compatible with these images. No special software is required.
