**Legend:**

**IE** - Eclipse ImageEncoder    **IA** - Eclipse ImageAnalysis Software  
**IC** - Eclipse ImageCopy Software    **IV** - Eclipse ImageVerify Software

**Notes:**

- 1** - Requires Midbar encoder. No special Eclipse hardware or software required, ImageEncoder interfaces directly to the Midbar encoder.
- 2** - In development.
- 3** - Requires Sony encoder; may require special hardware or software for ImageEncoder to interface with Sony encoder.
- 4** - Standard ImageEncoder is compatible with these images. No special software is required.
